

# Filtered Pre-Separators

*Lightweight and portable design make it ideal for use in central system applications.*

*HEPA filter ensures maximum air purity.*

## FEATURES & BENEFITS

### FILTERED PRE-SEPARATORS

-  Collects various materials within a single manufacturing environment while preventing product cross-contamination.
-  Locally collects and filters material while utilizing a central vacuum system.
-  Designed to allow for easy accountability of controlled substance waste.
-  Compact design allows for cost-effective collection and disposal of hazardous waste.
-  HEPA filter captures 99.97% of particles down to and including 0.3 microns in size.
-  Oversized main filter designed for fine particle collection.
-  External filter shaker handle\* keeps the main filter free of clogging dust for optimal suction power and filtration performance.

#### OPTIONS

- 220, 280, 360 or 460 mm diameter
- 3, 9, 25 or 66 liter capacity
- Oversized main filter
- External filter shaker
- HEPA filter
- Painted or stainless steel design
- Four filter media compositions
- Paper bag inlet (9-liter version)
